AKANKSHA SRIVASTAVA

Clinical Data Management (CDM) | Data Cleaning & Reconciliation | Clinical Trial Operations

Bengaluru, Karnataka, India | Phone: +91-8542827588 | Email: akankshas489@gmail.com

PROFESSIONAL SUMMARY

Quality-focused clinical research professional with 6+ years of progressive experience at ICON plc (2020 – Present) specializing in clinical trial data review, query management (DCFs), data cleaning, external/vendor data reconciliation, and database locking support. Proven track record in executing discrepancy investigation, performing Peer QC reviews, and maintaining study documentation in rigorous compliance with SOPs, GxP, and ICH-GCP (E6) guidelines. Demonstrated competence across Electronic Data Capture (EDC) workflows, Study Management Software, translation vendor coordination, and cross-functional collaboration with Global Project Managers, investigator sites, safety teams, and trial sponsors. Holds a Postgraduate Diploma in Clinical Research and Data Management and an M.Sc. in Biotechnology, combining strong scientific background with detail-driven operational and data quality execution.

CORE COMPETENCIES

Clinical Data Management & Cleaning: Clinical Trial Data Review, Query Management, Discrepancy Investigation & Resolution, Data Clarification Forms (DCF), Data Cleaning as per SOPs & Study Plans, Electronic Data Capture (EDC), External & Vendor Data Reconciliation, Subject Demographics & Visit Data Validation, Database Locking Activities (Interim & Final Locks), Paper CRF to EDC Data Transfer.

Data Quality, QC & Regulatory Compliance: ICH-GCP (E6) & GxP Compliance, Standard Operating Procedures (SOP) Adherence, Peer Quality Control (Peer QC) Reviews, Corrective and Preventive Action (CAPA) Reporting, Quality Assurance & Quality Control (QA/QC), Audit & Inspection Readiness Support, Discrepancy Tracking, Protocol Compliance.

Trial Operations & Stakeholder Coordination: Clinical Project Coordination, Internal & External Management Reporting, Sponsor & CRO Communication, Cross-Functional Team Coordination, Protocol Tracking Reports, Translation Vendor Management, Turnaround Time (TAT) Management, Data Metrics Monitoring, Risk & Issue Escalation, Laboratory Manuals & Study Documentation.

PROFESSIONAL EXPERIENCE

ICON plc

January 2020 – Present

Bengaluru, Karnataka, India

Lab Project Coordinator 1 — **March 2024 – Present**

- Perform clinical data reconciliation and update trial details in Study Management Software in accordance with sponsor requests and study-specific data plans.
- Execute clinical trial data review and query resolution by analyzing laboratory requisition forms, site responses, and discrepancy documentation to achieve prompt issue closure.
- Generate and quality-check weekly and monthly internal and external data management reports for Project Coordinator II, Project Managers, and sponsors, ensuring zero data omissions and complete data integrity.
- Conduct peer quality-control (Peer QC) checks across study databases and documentation, mentor coordinators on QC standards, maintain tracking logs, and follow up with Project Managers.
- Prepare Corrective and Preventive Action (CAPA) reports for cross-departmental management review to identify root causes, determine corrective actions, and ensure audit readiness.
- Schedule, maintain, and distribute Protocol Tracking Reports to clients to support trial budgeting, milestone monitoring, and protocol activity tracking.
- Prepare Laboratory Manuals according to Project Manager and sponsor requirements, configuring specimen tube specifications, temperature parameters, and Clinical Specimen Tracking Repository (CSTR) templates.
- Maintain records of newly awarded clinical studies and issue formal study notification communications to assigned Global Project Managers containing essential protocol details.

Site Services Specialist 2 — **April 2022 – March 2024**

Site Services Specialist 1 — **January 2020 – March 2022**

- Executed clinical study conduct and clinical data management activities in full adherence to Standard Operating Procedures (SOPs), GxP principles, and work instructions.
- Managed clinical discrepancy workflows by investigating data inconsistencies related to subject visits, fasting status, and protocol criteria through to complete resolution.
- Created, issued, and resolved data queries via Data Clarification Forms (DCFs) in coordination with clinical investigator sites and internal study teams.
- Executed external and vendor data reconciliation as requested by Project Managers to ensure complete alignment between external records and central clinical databases.
- Entered, validated, and quality-reviewed subject demographics, visit records, fasting status, and protocol data points in clinical data systems.
- Supported interim and final database locking activities by identifying, investigating, and resolving visit discrepancies and pending data queries.
- Monitored data management operational metrics and proactively escalated study bottlenecks, data discrepancies, and trial roadblocks to Team Leads, Line Managers, and Project Managers.
- Managed clinical study document translation workflows, uploading documentation to translation portals, reviewing translated materials, coordinating vendor quotes and approvals, and tracking turnaround times (TAT).
- Coordinated the ordering, inventory tracking, and distribution of clinical study supplies and lab kits per sponsor, CRA, and site requests.

Clinical Research Coordinator (CRC) Intern | **Samahitha Research Solutions** **April 2019 – October 2019**

Bengaluru, Karnataka, India

- Transferred clinical trial data accurately from paper Case Report Forms (CRF) into Electronic Data Capture (EDC) systems, performing initial verification checks.
- Supported clinical study timelines, milestone tracking, and project coordination to ensure scheduled trial deliverables remained on schedule.
- Monitored clinical trial progress and operational KPIs, following up with project team members, Line Managers, and Clinical Research Associates (CRAs) to address deviations from the study plan.
- Identified prospective clinical investigators and trial sites based on protocol requirements and completed site feasibility assessments.
- Participated in Site Initiation Visits (SIV), Site Monitoring Visits, and Site Closeout Visits (COV) under senior coordinator supervision.
- Coordinated patient recruitment activities, scheduled subject visits, and tracked patient progression throughout the trial lifecycle.
- Communicated and coordinated with multi-disciplinary stakeholders, including principal investigators, patients, Institutional Ethics Committees (IECs), and CRO project teams.

EDUCATION

Post Graduate Diploma in Clinical Research and Data Management — PES University, Bengaluru **2018 – 2019**

M.Sc. in Biotechnology — Integral University, Lucknow **2015 – 2017**

B.Sc. in Biology — National P.G. College, Lucknow University **2012 – 2015**

Intermediate (CBSE) — Kendriya Vidyalaya, Aliganj, Lucknow **2010 – 2012**

High School (CBSE) — Kendriya Vidyalaya, Aliganj, Lucknow **2009 – 2010**

TECHNICAL SKILLS

Clinical Data & Trial Systems: Electronic Data Capture (EDC), Study Management Software, Translation Portals, Clinical Specimen Tracking Repository (CSTR) configuration templates, paper Case Report Forms (CRF).

Regulatory & Quality Standards: ICH-GCP (E6), GxP Regulations, Standard Operating Procedures (SOPs), Data Clarification Forms (DCFs), Corrective and Preventive Action (CAPA), Quality Assurance & Quality Control (QA/QC), Clinical Trial Phases.

Computer & Office Applications: Microsoft Excel (Data Reconciliation, Reporting & Trackers), Microsoft Word, MS Windows, Internet & Email Applications, High-accuracy keyboard data entry.

CERTIFICATIONS & PROFESSIONAL TRAINING

- **Certificate in Information Technology (6 Months):** Indira Gandhi National Open University (IGNOU).
- **Certificate of Participation:** Three-Day Hands-on National Workshop on “Skills and Strategies for a Successful Research Career” (November 2018).
- **Certificate of Participation:** Paper Scientific Session in National Conference on “Emerging Trends in Forensic Science”, NIMHANS Convention Centre, Bengaluru (January 2019).
- **Certificate of Participation:** One-Day Workshop cum Hands-on Training on “Basic Techniques in Pharmacology Experiments”, Department of Pharmacology, PES College of Pharmacy (2018).

ACADEMIC RESEARCH & DISSERTATION

Master’s Dissertation: *“Molecular and Chemical Characterization of Artemisia species”* — Completed a 6-month intensive research dissertation under the supervision of Dr. Narendra Kumar at CSIR-Central Institute of Medicinal and Aromatic Plants (CSIR-CIMAP), Lucknow.
