AKANKSHA SRIVASTAVA

Clinical Project Coordination | Clinical Research Operations | Data Management

Bengaluru, Karnataka, India | Phone: +91-8542827588 | Email: akankshas489@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented clinical research professional with 6+ years of progressive experience across clinical site services, clinical data management, and lab project coordination at ICON plc (2020 – Present). Proven expertise in generating management and protocol tracking reports, performing clinical data reconciliation, resolving site and requisition queries via Data Clarification Forms (DCFs), and preparing laboratory manuals in compliance with ICH-GCP guidelines and Standard Operating Procedures (SOPs). Skilled in peer quality control (Peer QC), Corrective and Preventive Action (CAPA) tracking, database locking support, and cross-functional coordination with Global Project Managers, investigator sites, and trial sponsors. Holds a Postgraduate Diploma in Clinical Research and Data Management and an M.Sc. in Biotechnology, combining strong life sciences expertise with structured operational coordination and quality-focused execution.

CORE COMPETENCIES

Clinical Research & Trial Operations: Clinical Research Operations, Clinical Trial Coordination, Clinical Study Conduct, Clinical Trial Phases, ICH-GCP (E6) Guidelines, Site Feasibility Assessment, Site Initiation, Monitoring and Closeout Visits, Clinical Study Timelines, Milestone Tracking, Protocol Tracking, Patient Visit Coordination, Clinical Site Coordination.

Clinical Data Management & Quality: Clinical Data Management, Clinical Data Reconciliation, Query Management, Discrepancy Management, Data Clarification Forms (DCF), Electronic Data Capture (EDC), Subject Demographics & Visit Data, Database Locking Activities, Data Quality Control, Peer QC Checks, Standard Operating Procedures (SOP) Compliance, Quality Assurance & Quality Control (QA/QC), Corrective and Preventive Action (CAPA) Reporting.

Project Coordination & Operations: Clinical Project Coordination, Clinical Project Support, Internal & External Management Reporting, Sponsor Communication, Global Stakeholder Management, Study Documentation, Cross-Functional Coordination, Risk & Issue Escalation, Tracker Maintenance, Translation Vendor Coordination, Turnaround Time (TAT) Management.

PROFESSIONAL EXPERIENCE

ICON plc

January 2020 – Present

Bengaluru, Karnataka, India

Lab Project Coordinator 1 — **March 2024 – Present**

- Generate and quality-check weekly and monthly internal and external management reports for Project Coordinator II, Project Managers, and sponsors, verifying completeness and data integrity.
- Perform clinical data reconciliation and update study details in Study Management Software per Project Manager and sponsor requirements.
- Resolve queries by reviewing laboratory requisition forms, site responses, and discrepancy documentation to ensure timely issue closure.
- Prepare Laboratory Manuals according to Project Manager and sponsor requirements, including specimen tube specifications, temperature parameters, and Clinical Specimen Tracking Repository (CSTR) configuration in standard templates.
- Maintain records of newly awarded clinical studies and issue study notification communications to assigned Global Project Managers with essential trial information.
- Schedule, maintain, and distribute Protocol Tracking Reports to clients to support trial budgeting and protocol-related activities.
- Prepare Corrective and Preventive Action (CAPA) reports for cross-departmental management review to determine required remedial actions and track CAPA progression.
- Conduct peer quality-control (Peer QC) checks, review database documentation, maintain study trackers, and follow up with Project Managers.

Site Services Specialist 2 — **April 2022 – March 2024**

Site Services Specialist 1 — **January 2020 – March 2022**

- Supported clinical study conduct and clinical data management activities in full adherence to Standard Operating Procedures (SOPs) and work instructions.
- Managed discrepancy workflows by investigating issues related to subject visits and driving anomalies through to effective resolution.
- Created, issued, and resolved data queries via Data Clarification Forms (DCFs) with clinical sites and internal teams, following up until completion.
- Performed external data reconciliation as requested by Project Managers to verify alignment between external records and trial data.
- Entered and validated subject demographics, subject fasting status, and protocol-specific visit information.
- Supported database locking activities by identifying, investigating, and resolving visit discrepancies.
- Escalated operational issues and study bottlenecks proactively to Team Leads, Line Managers, and Project Managers.
- Coordinated the ordering, tracking, and distribution of clinical study supplies and kits based on sponsor, CRA, or investigator site requests.
- Managed clinical study document translation workflows for laboratory manuals, Site Coordination Guides (SCGs), and related study documents.
- Prepared translation dossiers based on Project Manager requests, uploaded documentation to translation portals, coordinated vendor quotations and management approvals, reviewed and proofread translated documents, and tracked vendor turnaround times (TAT).

Clinical Research Coordinator (CRC) Intern | **Samahitha Research Solutions** **April 2019 – October 2019**

Bengaluru, Karnataka, India

- Identified prospective investigators and clinical research sites based on trial protocol requirements.
- Conducted site visits, met with investigators, and completed site feasibility assessment questionnaires.
- Supported clinical study timelines, milestone tracking, and project coordination to ensure scheduled deliverables stayed on track.
- Monitored clinical trial progress, tracked key performance indicators (KPIs), and followed up with team members, Line Managers, and Clinical Research Associates (CRAs) to address deviations from the study plan.
- Participated in Site Initiation Visits (SIV), Site Monitoring Visits, and Site Closeout Visits (COV) under senior coordinator supervision.
- Coordinated patient recruitment activities, scheduled patient visits, and supported patient trial follow-up.
- Transferred clinical trial data from paper Case Report Forms (CRF) into Electronic Data Capture (EDC) systems.
- Coordinated and communicated with stakeholders across all levels, including principal investigators, patients, Institutional Ethics Committees (IECs), and CRO project teams.

EDUCATION

Post Graduate Diploma in Clinical Research and Data Management — PES University, Bengaluru **2018 – 2019**

M.Sc. in Biotechnology — Integral University, Lucknow **2015 – 2017**

B.Sc. in Biology — National P.G. College, Lucknow University **2012 – 2015**

Intermediate (CBSE) — Kendriya Vidyalaya, Aliganj, Lucknow **2010 – 2012**

High School (CBSE) — Kendriya Vidyalaya, Aliganj, Lucknow **2009 – 2010**

TECHNICAL SKILLS

Clinical & Project Systems: Study Management Software, Electronic Data Capture (EDC), Translation Portals, Clinical Specimen Tracking Repository (CSTR) configuration templates, paper Case Report Forms (CRF).

Computer Applications: Microsoft Excel, Microsoft Word, MS Windows, Internet & Email Applications, High-accuracy keyboard data entry.

Regulatory & Quality Methodologies: ICH-GCP (E6), Standard Operating Procedures (SOPs), Data Clarification Forms (DCFs), Corrective and Preventive Action (CAPA), Quality Assurance & Quality Control (QA/QC) in Clinical Trials, Clinical Trial Phases.

CERTIFICATIONS & PROFESSIONAL TRAINING

- **Certificate in Information Technology (6 Months):** Indira Gandhi National Open University (IGNOU).
- **Certificate of Participation:** Three-Day Hands-on National Workshop on “Skills and Strategies for a Successful Research Career” (November 2018).
- **Certificate of Participation:** Paper Scientific Session in National Conference on “Emerging Trends in Forensic Science”, NIMHANS Convention Centre, Bengaluru (January 2019).
- **Certificate of Participation:** One-Day Workshop cum Hands-on Training on “Basic Techniques in Pharmacology Experiments”, Department of Pharmacology, PES College of Pharmacy (2018).

ACADEMIC RESEARCH & DISSERTATION

Master’s Dissertation: *“Molecular and Chemical Characterization of Artemisia species”* — Completed a 6-month intensive research dissertation under the supervision of Dr. Narendra Kumar at CSIR-Central Institute of Medicinal and Aromatic Plants (CSIR-CIMAP), Lucknow.
